Expression of Interest for one (1) position of Postdoctoral Researcher

The National Hellenic Research Foundation (NHRF), in collaboration with the German Cancer Research Center (DKFZ) in Heidelberg, Germany, during the framework of a three-year research project titled «Establishment of Patient derived Colorectal Cancer models from intratumour heterogeneous populations and evaluation of the predictive capacity to therapeutic response» invites interested parties to apply for (1) post-doctoral position, as follows:

NECESSARY QUALIFICATION

Ph.D. degree in Biomedical Sciences, with emphasis on Translational Cancer Research

Experience in modern and advanced techniques of molecular-cell biology and precision oncology

Expertise with Tumour Models, Personalised Therapeutics, and Tumour derived material

Publications in high impact factor scientific journals and conferences presentations.

Previous experience in research programs related to the above mentioned qualifications as well as writing technical reports will be considered positively

The position is based at Heidelberg, Germany for 24 months, with the possibility that part of this period will be spend in Athens, depending on the project needs. The total monthly amount is 2500 Euro per month for the Post-Doctoral Researchers.

Interested parties are requested to send a curriculum vitae (and contact information for two letters of recommendation) electronically to

Dr A. Pintzas, e-mail: apint@eie.gr and Dr V. Zoumpourlis, e-mail: vzub@eie.gr

Institute of Biology, Medicinal Chemistry and Biotechnology, National Hellenic Research Foundation.

with the indication: “Expression of interest for cancer research.
