

Staff Research Positions at TPCI/NHRF

The Theoretical and Physical Chemistry Institute (TPCI) of the National Hellenic Research Foundation (NHRF) (www.eie.gr) announces an international expression of interest for staff research positions.

Appointments will be at the untenured Assistant Researcher level. In special cases, a Senior Researcher appointment may be possible. Candidates should hold a Ph.D. in chemistry, physics or a related field. Candidates with research interests in all areas relevant to the fields of Theoretical and Computational Chemistry and Physics, Materials Synthesis and Physical Chemistry and Photonics for Nano-applications will be considered. The successful candidates are expected to develop a sponsored research program.

Interested candidates should submit application materials and any questions electronically to tpci@eie.gr.

Each application must include: a curriculum vitae, the names and addresses of three or more references and a strategic statement of research interests.

Responses received by October 1, 2014 will be given priority.
